

Thursday, October 08, 2015

Dear Mayor Liluan Chu,

*Congratulations!*

Your city has fulfilled all of the requirements for the Compact of Mayors showing leadership in climate change actions in adaptation and mitigation. Today we are pleased to announce New Taipei city as *Full Compliant city*.

Your city has joined other major cities in the world by sharing its commitments and actions against climate change, identifying its climate hazards, its vulnerabilities and communicating long term targets for GHG emissions reduction.

The Compact of Mayors recognizes your efforts publicly through the seal of "Compliant" which will be displayed on your city profile at [www.compactofmayors.org](http://www.compactofmayors.org). Attached you will find a high-resolution copy of your seals. You are free to use it in your external communications and in promoting your affiliation with the Compact of Mayors.

We are sure your achievement will serve as inspiration for your citizens and neighbors, encouraging them towards a sustainable future.

Best wishes

Gino Van Begin, ICLEI Secretary-General
